

Pre-Cut Traditional Sauna Kits

Complete Sauna kits for your in-home Sauna Room.
Featuring Tylö Sauna Heaters.

Our do-it-yourself sauna kit contains all the parts needed to build an in-home sauna except wall studding, insulation, and wall surfacing materials for the exterior side of the walls. A complete sauna can be built in about a day and is a less expensive, non-portable alternative to our pre-built kit. Just follow the assembly sheet provided for easy step-by-step instructions.

Please note that these kits are designed for the do-it-yourself-er with good woodworking skills and an understanding of basic carpentry.

Additional upgrades and Custom Designs available.

Pre-Cut Sauna Standard Features

Easy-assembly, free-standing modular sauna includes:

- Grade A and better clear select Western Red Cedar for its natural resistance to decay.
- Cedar for interior walls, ceiling and trim
 - 1/2" thick x 3.5" wide "V Groove" tongue and groove
- Pre-assembled cedar duckboards for floor walk area
- Pre-hung door, door stop, trim and door handles
- Pre-assembled benches, bench supports, blinders and fascia
 - 1" x 4" bench tops on 2" x 4" framing
- Eased edges on all benches and trim, using vertical grain material for stability
- Blind fastening for all benches and floor grids.
- Matching cedar vents
